EDUCATION

Noida Institute of Engineering and Technology

B. Tech CSE

Greater Noida

Aug. 2022 – July 2026

EXPERIENCE

SDE Intern

Softgains Tech Solutions Pvt. Ltd.

Jan. 2025 – March 2025

Greater Noida

- Built and optimized **REST APIs** using **Django REST Framework**, connecting API endpoints to frontend.
- Spearheaded the implementation **responsive design** principles to ensure optimal user experience across various devices and screen sizes.
- Integrated and managed **PostgreSQL** database connections using **Django ORM**, enabling efficient data storage, retrieval, and manipulation across multiple modules.

PROJECTS

IPL Auction Data Analysis using PandasAI | *Python, Pandas, OpenAI API, Matplotlib, NumPy* Feb. 2026

- Built an AI-powered data analysis system to extract insights from IPL Auction dataset using **PandasAI and OpenAI API**.
- Implemented data preprocessing, aggregation, and visualization pipelines to analyze auction trends and expenditure patterns.
- Leveraged AI-assisted prompts to perform exploratory data analysis (EDA) and generate automated visual reports.

Predicting AQI using Machine Learning | *Python, Pandas, NumPy, Matplotlib, Seaborn, ML* Jan. 2026

- Performed data preprocessing, correlation analysis, and feature selection using **Pandas and Seaborn**.
- Implemented and compared regression models including **Linear Regression and Random Forest Regressor**.
- Applied supervised learning (Random Forest Regression) for continuous AQI forecasting.

Resume Parser with Skill Matcher | *Python, Flask, Spacy, Pandas, scikit-learn* Oct. 2024 – Nov. 2024

- Built a **Python-based web application** using **Flask** to parse resumes (PDF/docx) and extract relevant skills using **NLP** techniques.
- Implemented **Spacy** for Named Entity Recognition (NER) and **cosine similarity** to match extracted skills with job descriptions.
- Developed a user-friendly interface for uploading resumes and viewing skill-job match scores, demonstrating **real-world NLP** and **text matching** capabilities.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL, HTML, CSS

Frameworks and Libraries: Django, React.js, Bootstrap

Developer Tools: Git, GitHub, Docker, VS Code, IntelliJ

CERTIFICATION

Python for Data Science, AI Development - Coursera

Data Analysis with Pandas and Python - Infosys Springboard

Natural Language Processing using Python - Infosys Springboard

EXTRACURRICULARS

Technical Head - EmergeX

- Led and managed the technical team of the club, coordinating multiple projects and events.
- Organized and conducted technical workshops on Web Development, AI/ML, and Programming.
