SUMMARY

Aspiring Software Engineer with hands-on experience in React.js, JavaScript, Python, Django, and SQL. Skilled in developing web applications, integrating frontend and backend services, and working with databases to build efficient software solutions. Strong foundation in full-stack development, API development, and problem-solving, with a keen interest in building scalable and reliable applications.

EDUCATION

Noida Institute of Engineering and Technology
B. Tech CSE

Greater Noida
Aug. 2022 – July 2026

EXPERIENCE

SDE Intern

Jan. 2025 – March 2025

Softgains Tech Solutions Pvt. Ltd.

Greater Noida

- Developed web applications using **Python, Django, HTML, CSS, and JavaScript**, focusing on responsive and user-friendly interfaces.
- Integrated **PostgreSQL** databases using **Django ORM** for efficient data storage, retrieval, and management across application modules.

PROJECTS

Team Task Manager | *React.js, JavaScript, REST API, SQL*

May 2026

- Developed a **full-stack task management application** using **React.js and JavaScript** to manage projects, tasks, assignments, and team progress.
- Built reusable **React components**, integrated REST APIs, and implemented **CRUD operations** with SQL-based data storage for efficient task management.

IPL Auction Data Analysis | *Python, Pandas, Matplotlib, NumPy*

Feb. 2026

- Analyzed IPL auction data using **Python and Pandas** to identify player valuation, team spending, and auction trends.
- Built data preprocessing, aggregation, and visualization pipelines using **NumPy and Matplotlib** to generate actionable insights from the dataset.

Predicting AQI using Machine Learning | *Python, Pandas, NumPy, Matplotlib, Seaborn, ML*

Jan. 2026

- Preprocessed and analyzed AQI data using **Pandas, NumPy, and Seaborn**, performing correlation analysis and feature selection.
- Built and compared **Linear Regression and Random Forest** models for continuous AQI prediction and evaluated their performance.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL, HTML, CSS

Frameworks and Libraries: Django, React.js, Node.js, Bootstrap

Developer Tools: Git, GitHub, Docker, VS Code, IntelliJ

CERTIFICATION

Python for Data Science, AI Development - Coursera

Data Analysis with Pandas and Python - Infosys Springboard

Natural Language Processing using Python - Infosys Springboard

EXTRACURRICULARS

Technical Head - EmergeX

- Led and managed the technical team of the club, coordinating multiple projects and events.
- Organized and conducted technical workshops on Web Development, AI/ML, and Programming.
